### **WHAT YOU WILL LEARN**

- Review foundational skills for application to Constructed Response: analyze and annotate source text, deconstruct the task
- Model the step by step process for both Short and Extended Constructed Response using source texts
- Create an effective response using specific tools and strategies such as paraphrasing and citing evidence from the source text
- Develop Key Comprehension Questions for use with a variety of source text - reading adoptions, stories, articles, science and/or social studies text
- Utilize the Framing Questions for literary analysis
- Evaluate responses using rubrics to target areas of weakness for focused instruction
